Subject: Microsoft Settlement

The proposed settlement falls far short of punishing Microsoft for their past transgressions and does nothing to prevent them from continuing the same practices that got them in trouble in the first place. If a tougher settlement isn't decided on, then I'm sure you will be back in another 5-10 years to slap Microsoft's wrist once again. I realize that someday a company will be allowed to get so powerful that even the government will be afraid of them, but please don't let Microsoft be that company.

Thank you for giving me this opportunity to tell you how I don't like the proposed settlement with Microsoft.

Sincerely yours,
Ramsey Frye
